Thesis Defense Rubric

Process

The student needs to submit the written thesis to committee members to review and provide comments at least 2 weeks before the defense. On the day of the defense the student needs to make an oral presentation of the thesis, following which the committee members will ask questions. The grade will be assigned based on the written document, oral presentation, and response to questions.

The committee members will give one set of scores after discussing and reaching a consensus.

A grade of 1 on the Overall Assessment will constitute a failure
